

Vision Statement Kingsgrove North High School strives to produce resilient, informed 21st century learners in a safe, supportive and engaging educational environment.

MESSAGE FROM THE PRINCIPAL

Congratulations! If you are reading this, you have successfully completed Year 11 and are undertaking the HSC or equivalent for 2023.

If you have friends or family who have completed Year 12 successfully, you will understand the academic workload that Year 12 brings.

Some of you are already reaping the rewards of hard work. There is also a proportion of students who need to greatly increase their effort and follow the guidance of teachers as specified in their 2022 reports. These comments are important; especially if you do not need an ATAR, as report comments may be the path to an apprenticeship, part-time work or early entry to university. I cannot stress enough the importance of a positive mindset as you enter Year 12.

Remember that parents, teachers, the Deputy Principal, Year Advisers and the Careers Adviser are all excellent resources here to support your journey.

It is pertinent for me to remind you that you must:

- apply yourself diligently at all times and complete/submit all assessment tasks on time and in compliance with NESA guidelines.
- realise that assessment tasks are worth 50% of your HSC mark. This is to reward effort and skills that cannot be tested in the HSC examinations, and therefore they are very important.

It is pertinent for me to advise:

- that this handbook is the ultimate guide. Become familiar with it. Keep a hard copy and download an electronic copy.
- that you should abide by 'All My Own Work'- never give someone your work to copy. You will also
 receive zero marks for plagiarism.
- that if you are struggling, ask for help.
- that poor mark in an assessment is an opportunity to learn.

I wish every student success in their studies for 2023

Angelo Stasos Principal

Assessment Calendar 2022 - 2023	91

Preamble

The purpose of this, the Year 12 Assessment Handbook, is to communicate the policies, procedures and rules in relation to internal assessment in Stage 6 at Kingsgrove North High School. It seeks to provide contextual clarification of the rules and processes specified by the *NSW Education Standards Authority* (hereby referred to as NESA). This handbook also contains the assessment schedule for all Year 12 courses at Kingsgrove North High School. It expands upon the General Information about the HSC provided in the *Stage 6 Subject Selection Booklet*.

At the commencement of both the Year 11 and HSC (Year 12) courses, students will be provided with a hard copy of this handbook. Updated versions are accessible on the <u>school's website</u>, as are the forms referred to in this handbook.

General Information about the HSC

The Higher School Certificate (HSC) is the highest educational credential in New South Wales schools. It is awarded to NSW students who have satisfactorily completed Years 11 and 12 at secondary school. To be eligible, students must meet both Year 11 and HSC course requirements and sit the state-wide HSC examinations. The HSC is an internationally recognised credential that provides a strong foundation for students wishing to pursue tertiary qualifications, vocational training or employment.

Eligibility

The rules and requirements for HSC eligibility are governed by NESA and are published in the *Assessment, Certification and Examination (ACE) Manual.* To be eligible for the HSC, students must:

- meet the <u>HSC minimum standard</u> in Literacy and Numeracy
- satisfactorily complete Years 9 and 10 or gain other qualifications that satisfy NESA
- attend a government school, an accredited non-government school, a NESA-recognised school outside NSW, or a TAFE college
- complete <u>HSC: All My Own Work</u> (or its equivalent) before submitting any work for Year 11 or HSC courses, unless a student is only entered for Year 11 and Year 12 Life Skills courses
- satisfactorily complete courses in the patterns of study that are detailed in the following section
- sit for and make a serious attempt at the required HSC exams.

Pattern of Study

To qualify for the HSC, a student must satisfactorily complete:

- a Year 11 pattern of study that includes at least 12 units
- a HSC pattern of study that includes at least 10 units.

Both patterns of study must include:

- at least 6 units from Board Developed Courses
- at least 2 units of a Board Developed Course in English, or English Studies
- at least 3 courses of 2 units value or greater (either Board Developed or Board Endorsed Courses)
- at least 4 subjects.

HSC Record of Achievement

HSC results are available in the <u>Students Online</u> account and sent to students by email and SMS in December. Students can also download and print their full credentials from Students Online in December. Hard copies of the testamur (certificate) are sent in the mail in January the following year. Samples can be viewed on <u>NESA's HSC Credentials page</u>.

The first page of the Record of Achievement will list your results in each HSC course you completed. For Board Developed Courses with an external HSC exam, these results will report your achievement against standards that clearly describe your level of knowledge, skills and understanding. These reports will show you:

- the performance bands
- what a typical student knows and can do at each achievement level
- a graph of the mark distribution for the course.

If you are not eligible for an HSC and are leaving school, you may still receive a <u>Record of School</u> <u>Achievement</u> (hereby referred to as RoSA). Your RoSA will show your results in all Year 10, 11 and 12 courses that you completed. If you are not eligible for a RoSA, you will receive a Transcript of Study listing your results.

Performance Bands

Student performance in each HSC course is measured against defined standards. HSC marks for each course are divided into bands and each band aligns with a description of a typical performance by a student within that mark range. The <u>performance bands</u> and descriptions give meaning to the HSC mark. For a 2-unit course, Band 6 indicates the highest level of performance, and the minimum standard expected is 50:

Band 6	=	90	-	100	marks
Band 5	=	80	-	89	marks
Band 4	=	70	-	79	marks
Band 3	=	60	-	69	marks
Band 2	=	50	-	59	marks
Band 1	=	0	-	49	marks

Each band is aligned to what a student at that level of performance typically knows, understands and can do. The 'average' performance in most courses is usually a mark in the mid-70s (Band 4). Band 1 indicates that a student has not met enough of the course outcomes for a report to be made. Band 1 includes marks ranging from 0 to 49. For an Extension course, the bands are E4 (highest level of performance) to E1.

HSC Minimum Standards

Students need to meet a <u>minimum standard of literacy and numeracy</u> to receive the HSC. Literacy and numeracy skills are key for success in everyday life. Achieving the HSC minimum standard means students will have the <u>level of skills</u> necessary for success after school.

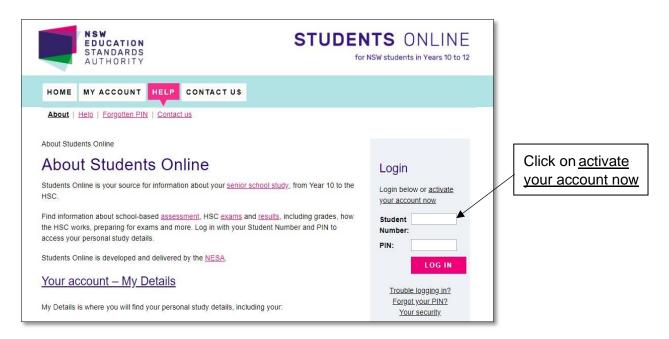

Students show they have met the HSC minimum standard by passing <u>online tests</u> of basic reading, writing and numeracy skills needed for everyday tasks. The minimum standard online tests are not based on NAPLAN.

Students master basic skills at different stages so there are multiple opportunities available for students to <u>understand what to expect</u> and pass the minimum standard online tests, from Year 10 until a few years after Year 12. Some students will be <u>eligible for disability provisions for the minimum</u> <u>standards tests</u>, or an exemption from the HSC minimum standard requirement.

Students Online

<u>Students Online</u> provides students in Years 10, 11 and 12 with useful information about senior school study, particularly on assessment, examinations and results, and how the HSC works. Year 10, 11 and 12 students in NSW are eligible for a *Students Online* account. The email address students have provided to NESA through their Confirmation of Entry along with the NESA Student Number are needed to activate the account.

Disability Provisions

<u>Disability provisions</u> are approved by NESA to provide students who have a permanent or temporary disability with practical support in the Higher School Certificate examinations. Regardless of the nature of the disability, the provisions granted will be solely determined by the implications for the student's functioning in an examination situation.

Schools are responsible for any decisions made at school level to offer provisions to students with a disability in course work, assessment tasks and in-school tests. NESA can offer no guarantee that school-determined provisions will apply in the Higher School Certificate examinations, as each application is individually assessed to ensure consistency and equity.

To apply for provisions, schools must submit an online application to NESA through *Schools Online*. This application tells us which provision/s a student is requesting and includes recent evidence. Evidence may include medical reports, reading results, spelling results, writing samples and teacher comments. Decisions on applications will be communicated to the school through *Schools Online* and the school will communicate this decision to the student.

Students and parents/caregivers are strongly advised to consult the <u>NESA website</u> for more information about Disability Provisions.

Assessment

Formal Assessment

Formal assessment tasks are those that students undertake as part of the school-based assessment program. Some examples of task types considered appropriate for formal assessment in Stage 6 include, but are not limited to presentations, reports, practical work, portfolios, journals, log books, process diaries, tests, compositions and formal written examinations.

Responsibilities of the School

The school is responsible for providing:

- students with the Year 12 Assessment Handbook, which details the procedures and expectations of the school, its staff and students with regard to assessment in Stage 6
- students with Year 12 Assessment Schedules (found in the Year 12 Assessment Handbook) for all courses that outline which components are to be assessed, when the assessment tasks are scheduled and the relative weighting that applies to each assessment task
- NESA with an assessment of students' achievement in each course they have studied in Year 11 and Year 12
- appropriate reporting procedures
- a review/appeals procedure for candidates dissatisfied with their final ranking, or for disputes arising during the assessment program
- special consideration to students with a disability and others with special needs following endorsement by the Principal.

Faculty Head Teachers are responsible for:

- setting assessment tasks that:
 - o will be used to measure student performance in each component of a course
 - are effective at discriminating between students' achievement of outcomes in order to determine assessment rank
 - o specify a mark/weighting for each assessment task
 - o are of the same type and have the same weighting for all classes studying that course.
- providing students with a written assessment notification for each assessment task that contains a more detailed explanation of the specific nature of the task. This notification will be issued at least two weeks in advance. In exceptional circumstances, the school may reschedule or substitute an assessment task with the written approval of the Principal. In such cases, teachers will inform students of the new arrangements, in writing, at least two weeks in advance.
- maintaining a register for all assessment tasks that acknowledges the receipt of the assessment notification (by the student), submission of the assessment task (by the teacher), and the return of the assessment task (by the student).
- providing students with assessment task feedback at the completion of each task, which includes a mark or grade, rank (if applicable), detailed marking criteria and written feedback.
- establishing procedures for recording and reporting student performance on all assessment tasks.
- issuing official NESA Non-Completion of a Course Warning Letters to students and parents/caregivers outlining the areas of unsatisfactory completion of the Year 11 and/or Year 12 course requirements. The Deputy Principal will also be notified.

• ensuring that final cumulative school-based assessment marks are not provided to students and that students are aware that they can access their *Assessment Rank Order Notice* after the last HSC examination has occurred.

Responsibilities of the Student

Students are responsible for:

- being familiar with the procedures and course information contained in the Year 12 Assessment Handbook.
- attending classes regularly and ensuring their attendance enables them to achieve course outcomes.
- demonstrating sustained diligence and effort in each subject and participating in all lessons constructively.
- making a serious attempt at all assessment tasks and completing all other set tasks in order to achieve course outcomes.
- ensuring when they are absent from school that they know it is their responsibility to know what work has been missed and how to complete that work.
- ensuring when absent from school on the day an assessment task notification is issued that they know it is their responsibility to contact their teacher and/or the relevant Faculty Head Teacher to obtain the task notification. No extension or leave will be granted if a student fails to carry out this action.
- speaking with their teacher or the relevant Faculty Head Teacher for clarification about the requirements of the subject/course assessment program.
- being present for, or to hand in, all assessment tasks at the required time as specified in the assessment notification, assessment booklet and the assessment calendar.
- submitting work that is their own. Any material copied without acknowledgment of the original source will be regarded as plagiarism and penalties will be imposed.

Completion of School-Based Assessment

Students are advised of the following NESA Assessment Certification Examination (ACE) policies:

ACE 8073: Completion of HSC internal assessment tasks

NESA expects students to attempt all assessment tasks set. For all *Board Developed Courses* (except VET and Life Skills courses) NESA requires all students to follow an assessment program and have an assessment mark submitted. A student who does not comply with the assessment requirements and receives a **non-completion determination** in a course will have neither an assessment mark nor an examination mark awarded for that course. In the case of extension courses, students who do not comply with the minimum assessment requirements for a co-requisite course will not receive a result in either course.

ACE 8078: Non-completion of HSC internal assessment: failure to submit task

If a student fails to complete a task specified in the assessment program and the teacher considers the student has a valid reason (e.g. illness or endorsed leave), the Principal may decide that, in accordance with the school's assessment policy, an extension of time may be granted or a mark may be awarded based on a substitute task. In exceptional circumstances (e.g. where undertaking a substitute task is not feasible or reasonable, or where the missed task is difficult to duplicate), the Principal may authorise the use of an estimate based on other appropriate evidence. If there is no valid reason for failing to complete an assessment task, a **zero mark** must be recorded for that task. If a student's attempt at a particular task scores zero, the question of whether the attempt was a genuine one is a matter for the teacher's professional judgement.

ACE 8079: Non-completion of HSC internal assessment: principals must warn students

If it appears that a student is at risk of not meeting the internal assessment requirements in a course, a warning must be given. The Principal must:

- a. advise the student in writing, in time for the problem to be corrected, specifying details of action required by the student and alerting the student to the possible consequences of a noncompletion ('N') determination.
- b. advise the parent or guardian in writing if the student is under 18.
- c. request from the student and/or parent/guardian a written acknowledgement of the warning.
- d. issue at least one follow-up warning letter (if the student is still at risk of not meeting requirements).
- e. retain a copy of the warning notice and other relevant documentation.

Notification of Assessment Tasks

Students will be notified in writing of the specific details of an assessment task **at least two weeks** prior to the task. The written notification of each task must include:

- the date and time of the task and/or when the task is due.
- outcomes assessed.
- description of the nature of the task.
- task weighting.
- marking criteria/information about how the task will be assessed and how feedback will be provided.

Students are responsible for obtaining the assessment task notification from their teacher if they are absent on the day that notifications are issue. Extensions will not be granted based on the task not being received (see *Responsibilities of the Student*).

Maintaining Honesty and Integrity

Honesty is Key for all Students and Staff

All HSC candidates, their teachers and others who guide them must comply with NESA's Honesty in Assessment Standards to maintain the integrity of the HSC. Students should also read their course syllabuses and related NESA policies, such as those on malpractice and completion of a course, on <u>NESA's website</u>. Students must be entirely honest when completing all assessment tasks, examinations and submitted works. Students will be marked only on the quality and originality of the work they have produced.

Always Acknowledge Your Sources

Students must acknowledge any part of their work that was written, created or developed by someone else, in line with the NESA documents for each course. This includes any material from other sources like books, journals, electronic resources and the internet. Students do not need to formally acknowledge material that they learned from their teacher in class

HSC: All My Own Work

<u>HSC: All My Own Work</u> is a program designed to help HSC students follow the principles and practices of good scholarship. This includes understanding, valuing and using ethical practices when locating and using information as part of their HSC studies. Students who have completed the program will also know about penalties for cheating and how to avoid malpractice when preparing their work for assessment. To be eligible for the HSC, students must complete HSC: All My Own Work (or its equivalent) before they submit any work for Year 11 or HSC (Year 12) courses, unless they are only entered for Year 11 and Year 12 Life Skills courses.

Malpractice

Malpractice is dishonest behaviour by a student that gives them an unfair advantage over others. It includes, but is not limited to:

- copying part or all of someone else's work and presenting it as their own.
- using material directly from books, journals, CDs or the internet without giving its source.
- building on someone else's ideas without giving their source.
- buying, stealing or borrowing someone else's work and presenting it as their own.
- submitting work that someone else, like a parent, coach or subject expert, substantially contributed to.
- using someone else's words, ideas, designs or work in projects and performance tasks without giving their source.
- paying someone to write or prepare material.
- breaching school exam rules.
- cheating in an HSC exam.
- using non-approved aids in an assessment task.
- giving false reasons for not handing in work by the due date.
- helping another student to engage in malpractice.

Where the teacher responsible for a task has reason to suspect malpractice, this will be brought to the attention of the relevant Faculty Head Teacher, and notified immediately to the Deputy Principal. The Deputy Principal will establish a committee to review any cases of suspected malpractice and determine the appropriate action should malpractice be proven. Should the student wish to appeal this decision, they must submit this in writing to the Deputy Principal **within five school days** of the decision being taken (see *Procedures for an Assessment Appeal Application*, and *Assessment Task Appeal Application Form*

https://kingsgrovn-h.schools.nsw.gov.au/content/dam/doe/sws/schools/k/kingsgrovnh/downloads/2023/Assessment_Appeal_Application_Form.pdf).

Malpractice in school-based assessment is a serious offence. If malpractice is proven, a **zero mark** may be awarded. In cases of proven malpractice in HSC assessment tasks, all schools are required to register this information with NESA.

Unfair Advantage in Assessment

NESA outlines that no student is to gain an unfair advantage over other students, whether that be on the day of, or in the days prior, to an assessment task. Causes of unfair advantage include:

- for a student to absent themselves from **any** lessons or normal school routine on a day that an assessment task is scheduled or a hand-in task is due.
- for a student to absent themselves from **any** lessons within **one day prior** to a scheduled assessment task without a doctor's certificate.
- arriving late to school on the day of a scheduled assessment task or hand-in task.

If it is deemed that a student has gained an unfair advantage, a **zero mark** may be awarded. Should the student wish to appeal this decision, they must submit this in writing to the Head Teacher Stage

6 within **five school days** of the decision being taken (see *Procedures for an Assessment Appeal Application*, p.24 and *Assessment Task Appeal Application Form* <u>https://kingsgrovn-h.schools.nsw.gov.au/content/dam/doe/sws/schools/k/kingsgrovn-h/downloads/2023/Assessment Appeal Application Form.pdf</u>).

Submissions of Assessment Tasks

The Year 12 Assessment Handbook shows the general timing of assessment tasks in regards to the school term and week. Precise submission dates and times for a hand-in task will be clearly specified on the assessment notification for that particular task. Teachers will provide students with an acknowledgement of the task being received. Dates and times for examinations will be provided on the examination timetable.

Failure to submit a task on time will result in a **zero mark** being awarded. If a student is absent on the day an assessment task is due, they may apply for illness/misadventure by following the procedures outlined in this handbook.

It is the student's responsibility to check the submission method detailed on the assessment notification, as this may vary due to the nature of the assessment task, such as fieldwork, excursions, pieces of major work and in-school tasks, as well as whether or not electronic submissions will be accepted, preferred or stated.

Students must submit the Assessment Task Notification Cover Sheet for all hand-in assessment tasks unless otherwise stated in the assessment task notification. In doing so, students make a pledge of honesty to uphold the integrity of assessment.

Examination Periods

A formal written examination is often in the same format as an HSC examination and typically draws from most or all content areas, topics or modules. An examination period is a dedicated time in which all examinations will be held for applicable courses. In Year 11 and Year 12, normal lessons will be suspended and students will only be required at school when their specific examinations are scheduled.

Examination Procedures and Rules

- Students will be provided with an examination timetable that clearly specifies the date and time of all examinations. During the examination period, there will be no normal lessons. Students are not required to be at school when they do not have an examination scheduled. Normal lessons resume at the end of the examination period. If a student has two examinations scheduled on the same day, they are not permitted to leave school between these two exams. Note: afternoon examinations may finish after 3:00pm.
- 2. Students must read the examination timetable carefully and be prepared to attend exams at the times and venues that the school arranges. The responsibility for checking the examination schedule for times and dates of examinations remains with the student. Students must arrive at the exam at <u>least 20 minutes early</u>. Concessions will not be made (such as extra time given) for students who arrive late for an examination or who miss an examination due to poor organisation.
- 3. Students must sit for all exams in which they are entered, unless they have an illness or misadventure, in which case they must notify the school immediately and follow the appropriate procedures. Students must also wear the **full school uniform** for all examinations (Year 12 jerseys may be worn with the rest of the school uniform).
- 4. KNHS Year 12 Assessment Policy applies during the examination period. Students must meet requirements specified in the assessment policy about attendance during assessment tasks. This means that if a student is unable to attend an examination due to illness or misadventure, the school should be contacted before 8:30am. On the next available day (first day of recovery) of return to school, the students should present a medical certificate to the Deputy Principal as per the school assessment policy. Failure to notify the school of your inability to attend an examination due to illness or misadventure may put this examination and a student's HSC at risk.
- 5. Students who miss examinations due to misadventure or illness may be provided with an opportunity to **re-sit missed examinations** in the exam block. This will occur in the first available time slot on the examination timetable. It is essential that students report to the relevant Deputy Principal to allow for organisation of catch-up exams.
- 6. Students are to provide their **KNHS identification cards**. In addition, these I.D. cards must always be displayed on students' examination table. Students must also know their **NESA identification number** which can be found on the NESA Schools Online portal.
- 7. Students should bring the equipment they need and know what equipment is allowed for each equipment А list NESA approved found exam. of exam can vou at: https://educationstandards.nsw.edu.au/wps/portal/nesa/11-12/hsc/rules-and-processes/examequipment-list. Students are responsible for ensuring their equipment is in good working order because the school will not uphold misadventure applications for equipment failure. Students may not borrow equipment during exams. Exam staff may inspect equipment when a student enters the room, and will tell them where to place any unauthorised items. However, exam staff are not responsible for these items.

Permitted Items	Prohibited Items
 Black pens Pencils, erasers and a sharpener A ruler Highlighter pens A clear bottle of water A non-programmable watch, which must be taken off, placed on your desk in clear view and not touched during the exam Other equipment as specified in the exam notification, like a calculator Stationary to be placed in either a clear (transparent) pencil case or a clear plastic sleeve (including the geometry set) 	 Mobile phones Programmable watches, like smart watches Any electronic devices (except a calculator, if allowed), including communication devices, organisers, tablets, music players, earphones or electronic dictionaries Paper or any printed or written material (including your exam timetable) Dictionaries (except in language exams, if allowed) Correction fluid or correction tape.

Examination Conditions

Exam conditions shall apply from when the first student enters the examination hall until the last student leaves the examination hall.

ON ENTERING THE EXAMINATION HALL AND DURING THE EXAMINATION

- 1. Candidates must enter the examination hall silently.
- 2. Complete silence MUST be adhered to whilst candidates are in the examination hall.
- 3. Bags, containing notes, are to be left in an orderly fashion on either side of the examination hall.
- 4. Students must sit at the desk that shows their name and/or student number (alphabetical order) or as instructed by supervising staff. Students must complete a **Student Attendance Slip** as an official record at each examination for faculty records.

Name: Tania Thomas	Seat#1
School ID: 123456789	
Exam: 12Biology	
Signature:	

- 5. Candidates MUST sit facing the front and are NOT to turn around or look at any other candidate's paper.
- 6. Candidates are NOT to communicate with any other candidates in any way.
- 7. Students must remain in the examination room for the duration of the examination. If students have to leave and want to return and resume the examination, they must be supervised while they are absent from the examination room. If students have completed the examination, they must remain seated and quiet. Any student who disrupts the examination may be at risk of receiving a '0' (zero) mark for their work.
- 8. <u>Candidates must remain for the entire duration for exams under 3 hours.</u> For <u>three-hour</u> <u>exams</u>, students are <u>not permitted to leave the exam in the first two hours or leave the exam</u> <u>in the last 20 minutes</u>.
- 9. Food and drink are NOT permitted in the exam hall.
- 10. Candidates MUST obey all reasonable instructions given by supervisors.
- 11. Borrowing is NOT permitted.

- 12. Candidates must NOT pick up their writing implements until reading time has ceased and writing time has started.
- 13. All enquiries are to be addressed by candidates raising their hand and waiting patiently.
- 14. Code of Conduct School Rules apply during ALL exams.
- 15. Read the instructions and all questions carefully. Exam supervisors cannot interpret or give instructions about exam questions.
- 16. Write your **student number** on all **writing booklets**, **question and answer booklets** and **answer sheets** (unless that information is already printed on them).
- 17. Write clearly with black pen (only use pencil if instructed to).
- 18. Write answers in the correct answer booklets. Tell the supervisor if you use the wrong booklet and write a note on the front of both booklets stating that you wrote an answer in the wrong place. Make sure you label and hand in all parts of your answers.
- 19. Answer in English, unless the question paper directs otherwise. If you do not write in English, you will receive zero marks for your answer.
- 20. Make a serious attempt at the exam by answering a range of question types. Answering only multiple-choice questions is not considered a serious attempt.
- 21. Stop writing immediately when the supervisor tells you to.
- 22. Follow the supervisor's instructions for arranging completed answers and wait for the supervisor to collect them.

ON <u>LEAVING</u> THE EXAMINATION HALL AND <u>AFTER</u> THE EXAMINATION

- 1. If your exam finishes while another exam is still in progress, classes will quietly depart the hall when dismissed by the supervising teachers.
- 2. Students must remain at school until all their examinations for the day are completed. They must then go directly home.

School Examination Rules

Students must follow the normal school rules, behaving politely and courteously towards the exam supervisors and other students. Specifically, students must not:

- a) Cheat.
- b) Include frivolous or objectionable material.
- c) Take any prohibited items prohibited into the room.
- d) Speak to anyone other than a supervisor.
- e) Behave in any way likely to disturb another student or upset the exam's running.
- f) Be affected by alcohol or illegal drugs.
- g) Eat unless approved by NESA (for example, if you have diabetes).
- h) Take any writing booklets or exam paper, whether used or not, out of the room.
- i) Write on your body (for example your arms), tissues or material that is not exam material.
- j) Leave the room if your principal requires all students to stay until each exam ends.

Supervisors can ask you to leave the exam if you do not follow these rules. It may also result in **zero marks** being awarded. If your actions might be illegal, you may also be reported to the police.

School Leave Affecting Assessment Tasks

Leave from school **may** be granted by the Principal upon completion of a *Leave Application Form*, which details all course work to be completed whilst on leave and any assessment requirements.

Students are expected to be present at school to complete all tasks, submit all assessment tasks and sit all examinations set as part of the assessment program for a course at the specified time. Students and parents/caregivers should **NOT** assume leave will be granted, particularly in circumstances where family holidays, social engagements or other matters of a discretionary nature clash with school assessment tasks and HSC tasks.

The Department of Education's position in relation to student leave is stated in the <u>Student Attendance</u> in <u>Government Schools Procedures School Attendance Policy</u>, in which students are discouraged from taking leave during the school term. This policy has been developed by the Learning and Engagement Directorate in 2015:

- 14.1. From the beginning of 2015, family holidays and travel are no longer considered under the *Exemption from School – Procedures*. Travel outside of the vacation period is now counted as an absence for statistical purposes.
- 14.3 A principal should not accept a reason for travel during school term if it is not in the best interests of the student. Educational, social and participation reasons should be specified on the application.

When Student Leave Clashes with an Assessment Task

All Year 11 and Year 12 assessments are conducted within the guidelines set by NESA. The NESA guidelines for Year 11 and Year 12 students make no provision for tasks missed due to leave. There are well-established protocols for illness and misadventure; however, requests for leave do not fall within these protocols. Students and families are expected to make arrangements to ensure that all requirements of the HSC can be fulfilled.

All assessments must be completed at the scheduled time, unless students are affected by illness or misadventure. Students absent from school due to leave must consult with the relevant **Faculty Head Teacher at least two weeks** prior to the scheduled task. Failure to consult within adequate time, and failure to comply with task submission requirements, may result in a **zero mark** being awarded.

All hand-in tasks due during the period of leave must be submitted prior to leave commencing or via Google Classroom.

Students Completing Work Placement

Students completing school, TAFE and/or other external placements are required to complete all school assessment tasks on the scheduled due dates. School assessments take priority and placements should be managed to avoid clashes with school assessments.

All hand-in tasks due during the period of work placement must be submitted prior to work placement commencing.

Students with a scheduled in-class task, such as an exam, presentation, or group-work task, may not be able to complete this prior to leave commencing. In this case, a **zero mark** may be awarded.

Absence due to School Business

The school will always endeavour to minimise clashes with assessment tasks and school organised activities. Students must also make every effort to avoid clashes with assessment tasks.

Absence due to Suspension

All assessments must be completed at the scheduled time, unless students are affected by illness or misadventure. Students absent from school due to suspension will **NOT** be entitled to apply for an extension or assessment reschedule. At the time of suspension, the Deputy Principal will notify the relevant Faculty Head Teachers of the student's suspension. The following procedures will then apply:

- 1. **Hand-in assessment tasks** the student is responsible for ensuring that all hand-in tasks received prior to the suspension being imposed which are due during the period of suspension are submitted on time, either by delivery to the school by a third party, or online, whichever is applicable.
- 2. **In-class assessment tasks** the relevant Faculty Head Teacher will reschedule an alternative date for the task, which will be communicated to the student and parent/carer via the Deputy Principal.
- 3. **Examinations** the Deputy Principal will arrange for the student to sit the examination at the scheduled time in an alternative school-based location, which will be communicated to the student, parent/caregiver and Faculty Head Teacher by Deputy Principal.

The consequences of not following these procedures may result in a zero mark being awarded.

Procedures for Applying for Illness/Misadventure

Consideration is given to students who suffer illness or misadventure at the time of a task. It is important to note that set procedures must be followed for this consideration to be applied in order to ensure fairness for all students.

Students need to be aware that if they commence or attempt an assessment task the result they achieve will be recorded. In this case, Illness/Misadventure therefore does not apply retrospectively.

Students wishing to apply for illness/misadventure should follow the relevant procedure specific to the situation as outlined below.

Procedures to follow in the event of:

- 1. Absence due to illness/misadventure on the day of an <u>in-school assessment task</u>
 - The student or parent/caregiver **MUST** contact the school **by 9:00am** on the day the task is scheduled by either phone or email.
 - Students must report to the **relevant Faculty Head Teacher** on the **first day of their return to school** and be prepared to complete the task on that day.
 - Students must obtain an <u>Illness/Misadventure Application Form</u> and any other relevant documentation, such as a medical certificate.
 - Completed forms and documentation must be returned to the **Faculty Head Teacher within** five school days of his/her return to school (i.e. no later than his/her third day back at school).
- 2. Absence due to illness/misadventure on the day a <u>hand-in assessment task</u> is due to be submitted
 - The student or parent/caregiver MUST contact the school by 9:00am on the day the task is due by either phone or email.
 - Students should make every attempt to have the task delivered in-person (e.g. by a third party) or submitted electronically (e.g. email or google classrooms)
 - If a task is not submitted on the due date, the student must submit the task to the **relevant** Faculty Head Teacher on the first day of their return to school.
 - Students must obtain an <u>Illness/Misadventure Application Form</u> and any other relevant documentation, such as a medical certificate.
 - Completed forms and documentation must be returned to the **Faculty Head Teacher within five school days** of his/her return to school (i.e. no later than his/her third day back at school).

3. Illness/misadventure during an in-school assessment

- The student **MUST** notify the supervisor of the task of any circumstance related to illness or misadventure that would prohibit them from performing in the assessment **BEFORE** they view the task. At this stage, the student will need to decide to either:
 - a) sit the task, in which case the mark earned will be awarded and the student **cannot apply retrospectively** for any special consideration due to illness or misadventure; or,
 - b) leave the task and apply for illness or misadventure by immediately obtaining an <u>Illness/Misadventure Application Form</u> and a medical certificate (if applicable) and following the Illness/Misadventure procedure.
- If the task has already commenced, the student must notify the task supervisor of the task of the circumstance related to illness or misadventure and the mark earned to that point shall be awarded. Students may submit an appeal should they feel their mark was negatively affected.

4. Illness/misadventure on a day during an examination period

- The student or parent/caregiver **MUST** contact the school **up until 30 minutes prior** to the commencement of the scheduled examination by either phone or email.
- **Prior to their return to school**, the student must contact the **Deputy Principal** to organise a rescheduling of the affected examination(s).
- On the day of a rescheduled examination, the student must report to the **Deputy Principal** at a time determined previously by the Head Teacher.
- Students must obtain an <u>Illness/Misadventure Application Form</u> and any other relevant documentation, such as a medical certificate.
- Completed forms and documentation must be returned to the **Deputy Principal within five school days** of his/her return to school (i.e. no later than his/her third day back at school).

5. Illness/misadventure for a group performance

- The individual student or parent/caregiver concerned (i.e. **NOT** another student member of the group) **MUST** contact on the day the task is scheduled by either phone or email.
- When a group performance cannot go ahead on a scheduled date, **ALL** students affected need to complete an <u>Illness/Misadventure Application Form</u>.
- These forms (and a medical certificate if applicable for the student concerned) need to be returned to the **relevant Faculty Head Teacher within five school days** of the scheduled date.
- The relevant Faculty Head Teacher will reschedule an alternative date for the performance.

In all cases where a task needs to be completed, the student (or all students in the case of a group performance) must:

- Be prepared to **complete the task on the first day of their return to school** unless an alternative arrangement has been made with the relevant Head Teacher.
- Complete an <u>Illness/Misadventure Application Form</u> and any other relevant documentation and return to the relevant Head Teacher within five school days of the student's return to school.

Relevant written evidence from a medical practitioner is **mandatory** for any application relating to illness for the application to be considered by the relevant Head Teacher. It is the student's responsibility to obtain a medical certificate from the medical practitioner and submit it to the school with the <u>Illness/Misadventure Application Form</u>.

The <u>Illness/Misadventure Application Form</u> is available online on the <u>school's website</u>, at the school office and from the Deputy Principal.

The consequences of not following these procedures may result in the application for Illness/Misadventure being rejected and a **zero mark** being awarded.

If the application is not accepted, a **zero mark** will be awarded for that task. Should the student wish to appeal this decision, they must submit this in writing to the Deputy Principal (see *Procedures for an Assessment Appeal Application*, and *Assessment Task Appeal Application Form* <u>https://kingsgrovn-h.schools.nsw.gov.au/content/dam/doe/sws/schools/k/kingsgrovn-h.downloads/2023/Assessment_Appeal_Application_Form.pdf</u>).

Outcome of Illness/Misadventure

The relevant Faculty Head Teacher will consider illness/misadventure cases specific to assessment tasks for courses within their faculty. They will judge the presented evidence and decide whether the application is to be accepted or rejected.

If the application is accepted, one of three things may occur:

- Original or substitute task is to be completed a zero will be recorded for the original task and the student will be required to complete the original task or a substitute task. Once completed, the mark gained for this task will replace the zero. If not competed, the zero mark remains.
- Awarded mark remains the student's performance in the assessment task may be considered unaffected. In this case, the student's original result in the task will remain as marked.
- **Maintain rank applied to task** in exceptional circumstances, where undertaking an alternative task is not possible, the Deputy Principal in consultation with the relevant Faculty Head Teacher, may determine that the student's relative assessment rank be maintained. This will be calculated at the end of the entire assessment period. This calculated mark would then replace the zero awarded at the time of the scheduled task.

If the application is rejected, then the **task must be submitted or attempted** in accordance with NESA rules and procedures and then one of two things may occur:

- Original task was submitted or attempted on time the original task will be marked and this earned mark will apply.
- Original task was submitted or attempted late the original task will be marked; however, a zero mark will be officially awarded.

In all cases, any student wishing to appeal this decision must do so in writing to the **Deputy Principal** (see *Procedures for an Assessment Appeal Application*, and *Assessment Task Appeal Application Form*

https://kingsgrovn-h.schools.nsw.gov.au/content/dam/doe/sws/schools/k/kingsgrovnh/downloads/2023/Assessment_Appeal_Application_Form.pdf)

within five school days of receiving the initial decision.

Procedures for an Assessment Appeal Application

All students have the right to appeal a decision made regarding an application for illness/ misadventure, malpractice, or an assessment task result. A student must submit an Assessment Appeal Application Form to the relevant Head Teacher, depending on the nature of the appeal

https://kingsgrovn-h.schools.nsw.gov.au/content/dam/doe/sws/schools/k/kingsgrovnh/downloads/2023/Assessment_Appeal_Application_Form.pdf.

In reviewing the determination of a student's appeal, the relevant Head Teacher will consider the following as applicable:

- The student's original Illness/Misadventure application
- Documentation submitted with the original application
- Any additional statement and/or documentation submitted with the student's appeal form
- All evidence presented which relates to the malpractice.

Students wishing to appeal a decision must follow the relevant procedure outlined below:

Reporting on Student Progress

Kingsgrove North High School provides written student progress reports in Semesters 1 and 2.

Achievement levels are recorded for each course outcome by a grade scale using word descriptors. The standard of achievement corresponding to each level of the grade scale is shown in the table below.

Level of Achievement	Grade	Descriptor
Outstanding Achievement	A	The student demonstrates extensive knowledge of content and understanding content concepts, and applies highly developed skills and processes in a wide variety of contexts. In addition, the student demonstrates creative and critical thinking skills using perceptive analysis and evaluation. The student effectively communicates complex ideas and information.
High Achievement	В	The student demonstrates thorough knowledge of content and understanding of course concepts, and applies well-developed skills and processes in a variety of contexts. In addition, the student demonstrates creative and critical thinking skills using analysis and evaluation. The student clearly communicates complex ideas and information.
Sound Achievement	С	The student demonstrates sound knowledge of content and understanding of course concepts, and applies skills and processes in a range of familiar contexts. In addition, the student demonstrates skills in selecting and integrating information and communicates relevant ideas in an appropriate manner.

Basic Achievement	D	The student demonstrates a basic knowledge of content and understanding of course concepts, and applies skills and processes in some familiar contexts. In addition, the student demonstrates skills in selecting and using information and communicates ideas in a descriptive manner.
Limited Achievement	Е	The student demonstrates an elementary knowledge of content and understanding of course concepts, and applies some skills and processes with guidance. In addition, the student demonstrates elementary skills in recounting information and communicating ideas.

Teachers, students and parents/caregivers must be aware that achievement grades **do not correlate** to the <u>HSC performance bands</u> and therefore **cannot** be used to predict results in a student's <u>HSC Record of Achievement</u>.

Each Year 11 and HSC course report contains a course mark or grade and rank (if applicable) as well as a comment from the class teacher highlighting strengths and areas for improvement. Reports may also include information indicating student participation in other certain activities during the year.

Parent-Teacher interviews are scheduled before the end of Semester 1 for both Year 11 and Year 12. These evenings are held to allow parents/caregivers and teachers to discuss student progress. Parents may make an appointment to discuss their child's progress.

At other times during the year, parents/caregivers are encouraged to discuss their child's progress by contacting the relevant Class Teacher or Head Teacher for curriculum matters, or the Year Adviser for other issues, such as student wellbeing.

Assessment of Life Skills Outcomes in Stage 6

<u>Stage 6 Life Skills courses</u> provide options for students with special education needs who are unable to access regular course outcomes, particularly students with an intellectual disability. The Stage 6 Life Skills courses can be undertaken in combination with other Board Developed and/or Board Endorsed Courses to meet the requirements for the award of the Higher School Certificate. Stage 6 Life Skills courses have Board Developed status. Each Stage 6 Life Skills course comprises a 2-unit 120-hour Year 11 course and a 2-unit 120-hour HSC course.

Each student accessing a Life Skills course in Years 11-12 will be assessed on their achievement of the outcomes selected through the collaborative curriculum planning process. The syllabus outcomes and content form the basis of learning opportunities for students. Assessment should provide opportunities for students to demonstrate achievement in relation to the selected outcomes. Assessment can occur in a range of situations or environments such as the school and wider community. There is no requirement for formal assessment of Life Skills outcomes.

Students entered for Life Skills courses may achieve the designated outcomes independently or with support. An outcome should be considered as 'achieved independently' if there is evidence that a student can demonstrate the achievement of an outcome either: without adjustments, or with adjustments that enable the student to access course work and/or demonstrate achievement during assessment opportunities. These adjustments should have been determined through the collaborative curriculum planning process. Schools are not required to use the Common Grade Scale (A-E) for Year 11 courses or performance bands or equivalent to report achievement for students undertaking Life Skills courses.

Frequently Asked Questions

1. What must I do to have satisfactorily completed a course?

NESA expects students to have:

- a) followed the course developed or endorsed by the Board; and
- b) applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- c) achieved some or all of the course outcomes.

In simple terms, you must complete all assessment tasks, hand in class work on time and be present at school. If you continually hand in work late, truant, are absent without justification or your behaviour affects your studies or that of others, you will not satisfy the criteria of applying yourself *"with diligence and sustained effort"*.

2. What do the terms internal and external assessment mean?

Internal assessment refers to assessment tasks designed and conducted by the school. External assessment refers to the HSC examinations, which are designed and conducted by NESA. In Year 12, internal assessment contributes 50% of your HSC mark and the HSC examination contributes the other 50% of your HSC mark.

3. What do the terms "examination", "in-class" and "hand-in" assessment task mean?

An "examination" is one that is held in an examination period under examination conditions and draws from most or all content areas, topics or modules of the syllabus. An "in-class assessment task" is one that requires you to be present at school in order to complete, such as topic tests, presentations, performances and submissions of major works. "Hand-in assessment tasks" are those that are completed at home and submitted by a designated due date and time.

4. How do I know when I have an assessment task?

The Year 12 HSC Assessment Handbook outlines the weeks in which tasks are due for ALL courses. You will receive an Assessment Task Notification for each task with a specific due date at least 2 weeks before the task is due.

5. What happens if I am not present when an assessment task is issued?

It is your responsibility to obtain the task from your teacher. Extensions will not be granted based on the task not being received.

6. Why may I be penalised for being absent the day before a task is due?

This may be perceived as unfair to other students, as it may allow you extra time to complete a task, a luxury other students do not have. If you have a valid reason for being absent, you may be asked to prove this by completing an <u>Illness/Misadventure Form</u> (and a medical certificate in the case of illness).

7. What happens if I have a valid reason for being unable to submit an assessment task on time?

You have to complete and submit a form to apply for the task to be rescheduled or for an extension of the due date.

8. What happens if I am absent the day a task is due?

Every effort must be made to submit the task on that day. If it is not submitted or attempted in the case of an examination or in-class task, then you must contact the school on the day by phone or email and apply for Illness/ Misadventure. In the case of illness, a medical certificate must be supplied by the medical practitioner.

9. What happens if I do not submit a task or sit an examination?

You will be awarded zero marks for that task and an N-warning letter will be issued as a supportive measure to ensure that you complete the task.

10. What happens if I do not make a serious attempt in an assessment task or examination?

You will be awarded zero marks for the task, an N-warning letter will be issued, and you will be required to re-attempt the task.

11. What does "non-serious attempt" mean?

This includes very poor attempts that contain an insufficient amount of work in which to assess a student's work, the use of derogatory remarks, obscene language and graffiti (e.g. drawing on an examination paper).

12. What happens if I have been found guilty of malpractice?

You will be awarded zero marks for the task, an N-warning letter will be issued, and you will be required to re-attempt the task.

13. What happens if my application for the rescheduling of a task or an extension to the due date of a task is rejected?

You will be required to submit the task by the due date.

14. What happens if my application for illness/misadventure is rejected?

If the task was submitted on time, you will be awarded the marks earned. If it was submitted late, you will be awarded zero marks. If it has not been attempted, you must attempt the task.

15. Can I appeal the decision of an application for reschedule, extension or illness/misadventure or if I have been found guilty of malpractice?

Yes. You will need to complete the Assessment Appeals Form and provide evidence that the Review Panel will consider.

16. Can I appeal an assessment task result for an individual task?

Yes. You will need to complete the Assessment Appeals Form and provide evidence that the relevant Faculty Head Teacher will consider.

OUTCOMES

COTOOMEO			
ES12-1	A student comprehends and responds analytically and imaginatively to a range of texts, including short and extended texts, literary texts and texts from academic, community, workplace and social contexts for a variate of purpage.	ES12-6	A student uses appropriate strategies to compose texts for different modes, media, audiences, contexts and purposes
	for a variety of purposes	ES12-7	A student represents own ideas in critical, interpretive and imaginative texts
ES12-2	A student identifies, uses and assesses strategies to comprehend increasingly complex and sustained written, spoken, visual, multimodal and digital texts that have been composed for different purposes	ES12-8	A student understands and explains the relationships between texts
	and contexts	ES12-9	A student identifies and explores ideas, values, points of view and attitudes
ES12-3	A student accesses, comprehends and uses information to communicate in a variety of ways		expressed in texts, and explains ways in which texts may influence, engage and persuade different audiences
ES12-4	A student composes proficient texts in different forms	ES12-10	A student monitors and reflects on own learning and adjusts individual and
ES12-5	A student develops knowledge, understanding and appreciation of how language is used, identifying and explaining specific language forms and features in texts that convey meaning to different audiences		collaborative processes to develop as a more independent learner

Scope and Sequence: English Studies – Year 12 2023

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week10	Week 11

OUTCOMES			
BIO 11/12-1	Develops and evaluates questions and hypotheses for scientific investigation.	BIO11/12-7	7 Communicates scientific understanding using suitable language and terminology for a specific audience or purpose.
BIO11/12-2	Designs and evaluates investigations in order to obtain primary and secondary data and information.	BIO12-12	Explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity.
BIO11/12-3	Conducts investigations to collect valid and reliable data, primary and secondary data and information.	BIO12-13	Explains natural genetic change and the use of genetic technologies to induce genetic change.
BIO11/12-4	Selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media.	BIO12-14	Analyses infectious disease in terms of disruption to homeostatic mechanisms and the organism's response, including the human immune system.
BIO11/12-5	Analyses and evaluates primary and secondary data and information.	BIO12-15	Explains non-infectious disease and disorders and a range of technologies and methods
BIO11/12-6	Solves scientific problems using primary and secondary data, critical thinking skills and scientific processes.		used to assist, control, prevent and treat non-infectious disease.

Notes: The outcomes listed below represent the knowledge, skills and understanding that students will achieve by the end of HSC course based on this syllabus, The outcomes have been linked to one objective but may derive from more than one. The degree to which students achieve these outcomes will be reported in the performance scale.

The student will:	The student:	1.3 exchanges and justifies opinions and ideas				
1. exchange information, opinions and experiences in Chinese	1.1 uses a range of strategies to maintain communication	1.4 reflects on aspects of past, present and future experience				
	1.2 conveys information appropriate to context, purpose and audience					
2. express ideas through the production of original texts in Chinese	2.1 applies knowledge of language structures to create original text					
	2.2 composes informative, descriptive, reflective, persuasive or evaluative texts appropriate to context, purpose and/or audience					
	2.3 structures and sequences ideas and information					
3. analyse, process and respond to texts that are in Chinese	3.1 conveys the gist of texts and identifies specific information	3.4 draws conclusions from or justifies an opinion				
	3.2 summarises the main ideas	3.5 interprets, analyses and evaluates information				
	3.3 identifies the tone, purpose, context and audience	3.6 infers points of view, attitude or emotions from language and context				
4. understand aspects of the language and culture of Chinese-speaking	4.1 recognises and employs language appropriate to different social contexts 4.3 reflects upon significant aspects of language and culture					
communities	4.2 identifies values, attitudes and beliefs of cultural significance					

There may be some need to adjust specific outcomes addressed for each task. Students will be informed of any changes via the Notice of Assessment which will be issued 2 weeks prior to any task. Students are asked to carefully examine the Notice of Assessment for each task.

Type of Task					
Assessment Component		Research Task	Topic Test	Engineering Report	Trial HSC Examination
Knowledge and understanding of course content.	60	15	15	15	15
Knowledge and skills in research, problem solving, and communication related to engineering practice	40	10	10	5	15
TOTAL	100	25	25	20	30
OUTCOMES		H1.1, H2.2, H3.1, H4.3, H6.1	H1.2, H2.1, H3.1, H3.3	H2.1, H2.2, H3.2, H4.1, H5.1, H6.2	H1.2, H2.1, H3.1, H3.3, H6.1

H1.1	Describes the scope of engineering and critically analyses current innovations	H3.3	Develops and uses specialised techniques in the application of graphics as a
H1.2	Differentiates between the properties and structure of materials and justifies the selection of materials in engineering applications	H4.1	communication tool Investigates the extent of technological change in engineering
H2.1	Determines suitable properties, uses and applications of materials, components and processes in engineering	H4.2	Applies knowledge of history and technological change to engineering-based problems
H2.2	Analyses and synthesises engineering applications in specific fields and reports on the importance of these to society	H4.3	Applies understanding of social, environmental and cultural implications of technological change in engineering to the analysis of specific engineering problems
H3.1	Demonstrates proficiency in the use of mathematical, scientific and graphical methods to analyse and solve problems of engineering practice	H5.1	Works individually and in teams to solve specific engineering problems and prepare engineering reports
H3.2	Uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports	H5.2	Selects and uses appropriate management and planning skills related to engineering
		H6.1	Demonstrates skills in research and problem-solving related to engineering
		H6.2	Demonstrates skills in analysis, synthesis and experimentation related to engineering

Scope and Sequence: Engineering Studies Stage 6 – Year 12 2023

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10		
	Module 1 - Engineering application module: Civil structures – 30 hours indicative time											
Term 4	Outcomes:	<i>Outcomes</i> : H1.2, H2.1, H3.1, H3.2, H3.3, H4.1, H4.2, H4.3, H5.1, H6.1, H6.2										
	Assessment Task: Research Task Term 4 (2022), Week 8 – Weighting 25% Outcomes Assessed - H1.1, H2.2, H3.1, H4.3, H6.1											
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10		
	Module 2 - E	Engineering appli	cation module: Perso	onal and public tran	sport – 30 hours inc	licative time						
Term 1	Outcomes:	Outcomes: H1.2, H2.1, H3.1, H3.2, H3.3, H4.1, H4.2, H4.3, H5.1, H6.1, H6.2										
			e st Term 1, Week 8 – H2.1, H3.1, H3.3	Weighting 25%								
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10		
	Module 3 - E	Module 3 - Engineering focus module: Aeronautical engineering – 30 hours indicative time										
Term 2	<i>Outcomes:</i> H1.1, H1.2, H2.2, H3.1, H3.2, H3.3, H4.1, H4.3, H5.2, H6.1											
	Assessment Task: <i>Engineering Report</i> Term 2, Week 8 – Weighting 20% Outcomes Assessed - H2.1, H2.2, H3.2, H4.1, H5.1, H6.2											
	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10		
	Module 4 - Engineering focus module: Telecommunications engineering – 30 hours indicative time											
Term 3	Outcomes:	H1.1, H1.2, H2.	2, H3.1, H3.2, H3.3,	H4.1, H4.3, H5.2, H6	.1							
			C Examination Term H2.1, H3.1, H3.3, H6.	,	ghting 30%							

VET Course Information

ULTIMO RTO 90072 VET COURSE ASSESSMENT SCHEDULES

Preliminary 2022 – HSC 2023

Vocational Education and Training (VET) Courses

Vocational Education and Training (VET) courses are offered as part of the Higher School Certificate (HSC) or Record of School Achievement (RoSA). VET courses are designed to deliver workplace-specific skills and knowledge and cover a wide range of careers and industries. VET courses for secondary students are developed by NSW Educational Standards Authority (NESA) and are based on national training packages.

VET courses allow students to gain both HSC or RoSA qualifications and a national qualification or a statement of attainment recognised throughout Australia as part of the Australian Qualification Framework (AQF). These qualifications are widely recognised by industry, employers, tertiary training providers and universities and will assist students to progress to various education and training sectors and employment.

Public Schools NSW, Ultimo is accredited as a Registered Training Organisation (RTO 90072) to deliver and assess VET qualifications to secondary school students.

It is mandatory for all students studying a VET course to create a Unique Student Identifier (USI) upon enrolment. Students will require a form of identification for the creation of the USI. Examples include a Medicare Card, Australian Birth Certificate, Driver's License or a valid Passport.

Competency-based training is based on performance standards that have been set by industry. Assessment in all VET courses is competency based. The student is assessed on what they can do (the skills) and what they know (the knowledge), these skills and knowledge will equip them in the workplace. Students are either deemed "competent" or "not yet competent" by the teacher. Students who have successfully achieved competency will have the skills and knowledge to complete workplace activities in a range of different situations and environments, to an industry standard of performance expected in the workplace.

Competency-based assessment materials are designed to ensure each learner has achieved all the outcomes (skills and knowledge) to the level expected in the qualification. Students in VET courses must be able to demonstrate competence regardless of disability. Students will receive documentation showing any competencies achieved for the VET course undertaken.

If the student has already completed part of the course elsewhere, or have previous life or work experience in the relevant industry, he/ she may be eligible for Recognition of Prior Learning (RPL) for part of the course, or for 35 Hours work placement in the HSC course. The student does not have to repeat the

training or assessment but must produce evidence of competence (which may be demonstrated during a skills and knowledge assessment). The VET committee consisting of the VET teacher, VET Coordinator and a member of the senior executive will determine if the student is eligible.

If a student has completed a unit of competency with another RTO and the student can supply evidence of the same or an equivalent competency, credit transfer is awarded (common examples include a white card course, first aid certificate or a barista course).

Board Developed VET courses (also known as Industry Curriculum Frameworks) are classified as Category B subjects and ONLY ONE can contribute to the calculation of the Australian Tertiary Admission Rank (ATAR). These courses have an optional HSC examination. Students wishing to include a VET course in the ATAR calculation must sit the HSC examination after they have completed a minimum of 4 Preliminary and/or HSC units.

Board Developed VET courses have specified workplace requirements and include 70 hours of industry specific mandatory work placement or simulated workplace hours as determined by NESA.

Stage 6 Board Endorsed VET Courses count towards the HSC or RoSA but do not have HSC examinations therefore do not count in the calculation of the ATAR. Board Endorsed VET Courses have mandatory or recommended industry specific work placement.

Due to the specific requirements of a VET course it is recommended students speak to the VET Coordinator or Careers Adviser before choosing the course to ensure they are fully aware of the requirements and the course is suitable for their individual needs, knowledge and skills.

PUBLIC SCHOOLS NSW ULTIMO RTO 90072 CONSTRUCTION CATEGORY B BOARD DEVELOPED COURSE ASSESSMENT SCHEDULE Preliminary Year 2022 - HSC 2023 QUALIFICATION: CPC20220 - Certificate II in Construction Pathways (Release 6) & Statement of Attainment towards CPC20120 Certificate II in Construction (Release 3) Training Package: CPC08 Construction, Plumbing and Services (version 6.5) NB:The information may change in 2022 due to Training Package and NSW Education Standards Authority (NESA) updates. Notification of variations will be made in due time with minimum disruption or disadvantage.									
TERM	TERM Unit Code Units Of Competency Image: Second se								
		6 PRELIMINARY UOCs					240 Indicative Hours		
Term 1	CPCCWHS1001	Prepare to work safely in the construction industry	CP-E	М		Cluster 1 – GIT (White Card)	over 2 years		
Term 1	CPCCWHS2001	Apply WHS requirements, policies, and procedures in the construction industry	CP-C	М	20	Cluster 2 – Work Safe Stay Safe			
Term T							% Preliminary Exam		
	CPCCCM1001	Undertake basic estimation and costing	CP-C	М	35	Cluster 3 – Working it out			
Term 2	CPCCCOM1015	Carry out measurements and calculations	CP-C	М			35 hrs. Work placement		
T 0	CPPCCOM2001	Read and interpret plans and specifications	C-C	М	35	Cluster 4 – Project Planning			
Term 3	CPCCPM1013	Plan and organise work	CP-C	М					
		11 HSC UOCs							
Terms 4/5	CPCCBL20001 CPCCBL2002	Handle prepare bricklaying and blocklaying materials	CP-E C-E	E	30	Cluster 5 – Brick and Blocklaying	35 hrs. Work placement		
Option 1	CFCCBL2002	Use bricklaying and blocklaying tools and equipment	U-E	E			% Trial HSC Exam		
Terms 4/5	CPCCWF2002	Use wall and floor tiling tools and equipment	CP-E	E	35	Cluster 5 – Wall and Floor Tiling	The final estimate exam		
Option 2	CPCCCM2013	Undertake basic installation of wall tiles	C-E	E			mark will only be used as		
Terms 4/5	CPCCJN2001 CPCCJN3004	Assemble components Manufacture and assemble joinery components	CP C-E	E	40	Cluster 5 – Joinery	the optional HSC exam mark in the event of		
Option 3 Terms	CPCCCA2002	Use carpentry tools and equipment	CP-E	E		Cluster 6 – Tools, Equipment and Materials	misadventure. This mark		
4/5/6/7	CPCCCM2005	Use construction tools and equipment	C	M	50		should be derived from		
	CPCCCA2011	Handle carpentry materials	CP-E	E			either one or two formal exams. The calculation of		
							the estimate is a school		
Terms	CPCCVE1011	Undertake a basic construction project	С	М	55	Cluster 7 – Major Project	decision.		
5/6/7	CPCCOM1012	Work effectively and sustainably in the Construction Industry	CP-C	M					
NESA require	es students to study a	minimum of 240 hours to meet Preliminary and HS	C	Total	235-	Units of competency from the HSC focus areas	will be included in the		
, requirements				hours	240-	optional HSC examination.			
					245				

	PUBLIC SCHOOLS NSW ULTIMO RTO 90072 HOSPITALITY- KITCHEN OPERATIONS CATEGORY B BOARD DEVELOPED COURSE ASSESSMENT SCHEDULE Preliminary Year 2022 - HSC 2023 Education QUALIFICATION: SIT20416 Certificate II in Kitchen Operations Training Package: SIT Tourism, Travel and Hospitality (Release 1.2)								
TERM	Unit Code	Units Of Competency	AQF CORE / ELECTIVE	HSC STATUS	HSC Hrs.	Assessment Task Cluster & Methods of Assessment	HSC requirements Exam estimate mark & weighting to total 100%		
Term		9 PRELIMINARY UOCs				Evidence will be collected during Preliminary and HSC Course for the unit of competency SITHCCC011 Use cookery skills effectively	240 Indicative Hours over 2 years		
1	SITXFSA001 SITXWHS001 SITHCCC003	Use hygienic practices for food safety Participate in safe work practices Prepare and present sandwiches	C C E	M M E	10 15 20	Cluster A: Getting Ready for Work Written task/scenario, case study & observation of practical work	30% Prelim Yearly Exam		
Term 2	SITXFSA002 BSBSUS201 SITHCCC002	Participate in safe food handling practices Participate in environmentally sustainable work practices Prepare and present simple dishes	E	S E E	15 15 20	Cluster B: Sustainable Kitchen Practices Scenario, Written task, Observation of practical work	35 hrs Work placement		
Term 3	SITHKOP001 SITHCCC001 SITXINV002	Clean kitchen premises and equipment Use food preparation equipment Maintain the quality of perishable items	C C C	S S E	10 20 5	Cluster C: Maintain a Clean & Safe Kitchen Written task, Observation of practical work including temperature checks & completion of HACCP documentation.			
		5 HSC UOCs					70% Trial HSC Exam		
Terms 4 - 6	SITHCCC005 SITHCCC006 SITHCCC011	Prepare dishes using basic methods of cookery Prepare appetisers and salads Use cookery skills effectively	C E C	S E E	40 25 20	Cluster D: Quality Café Meals Written task & observation of practical work Portfolio of evidence including service periods. NOTE: person with THREE years' Industry Experience must be involved in assessment.	35 hrs Work placemen The final estimate exam mark will only be used as the optional HSC exam		
Terms 6 & 7	BSBWOR203 SITHIND002	Work effectively with others Source and use information on the hospitality industry	C E	M M	15 20	Cluster E: Working in the Hospitality Industry Written task and reflection	mark in the event of misadventure. This mark should be derived from either one or two formal exams. The calculation of the estimate is a school decision.		
	equires students t ary and HSC req	to study a minimum of 240 hours to meet uirements.	Total Hou	urs 240		Units of competency from the HSC focus areas will be HSC examination.	included in the optional
